

The best  
for your health

Because Your Life Matters.

As Can Health Group, Salihli Private Can Hospital since 2002, and Izmir Private Can Hospital since 2017, our vision is;

Being committed to ethical values, aware of social responsibility, and respectful of patients' rights, and an international health program that includes both health care studies and preventive practices.

We offer you healthcare service with our qualified, friendly professional staff while closely observing the developments in technology and quality, with no regard to religion, language, or race. In this context, as a Can Health Group family, we are offering our services through our scientific and technological superiority and our approach that accepts the human being as the highest value. Our fundamental values are; **ALWAYS BEING THE BEST, BEING RELIABLE, BEING A TEAM** that constantly learns, and having **EMPATHY** and **RESPECT**.

Can Health Group  
Izmir Can Hospital

## Bond

Bond is one of our core values. Can Hospital, as the name suggests, is built on the foundation of “life bond”. Hence, we treat all our patients as a part of this bond, embracing the diversity element.

## Belongingness

Can Hospital embraces all the shared values of the society to provide a mutual space of belongingness to its patients, where they feel at home.

## Versatility

Can Hospital is versatile. Just like how the heart is the center of the human body, Can Hospital treats its patients the same way, addressing their overarching needs.

## Empathy

Can Hospital adopts the principle of empathy. We believe in the curing power of the feeling of being understood and every member of Can Hospital shares this vision.

# HOSPITAL GENERAL

► In Izmir Private Can Hospital,  
all our medical units  
**OFFER HOLISTIC HEALTH CARE,**  
centered and around its priorities!

Besides the history of Izmir,  
It is a city that lives with its natural  
beauties, **sea tourism and modern life!**

# TEMPLE OF TRAJAN

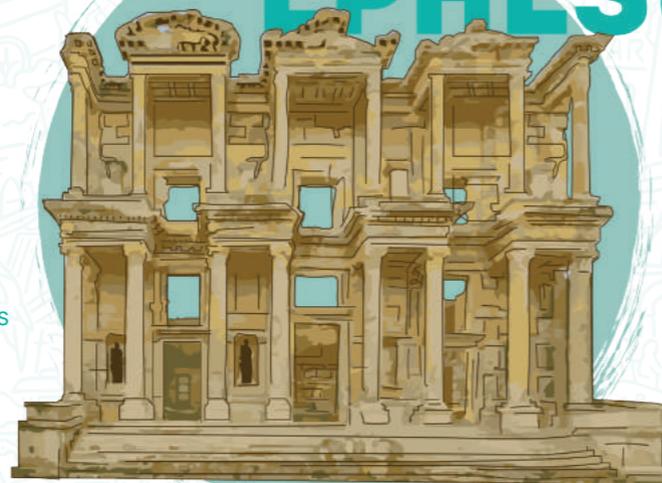

One of the most magnificent buildings of the Roman period in Pergamon was built in honor of Emperor Trajan about 1900 years ago. Pergamon was founded in the 3rd century BC and was the first center of health (Asklepion).

# CLOCK TOWER

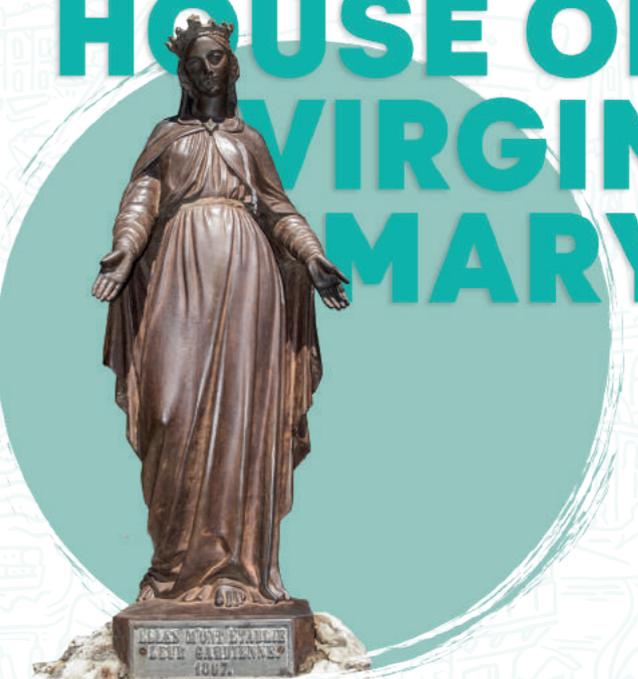

The Clock Tower which is built in 1901, is a historic clock tower located at the Konak Square which is also very close to the famous old bazaar. It is considered as the main landmark of the city.

# EPHESUS

The most important Ionian city in Asia Minor was built around 600 BC, Ephesus is famous for its gorgeous Temple of Artemis, The Library, The Ancient Villas and Amphitheater .

# HOUSE OF VIRGIN MARY

This place of pilgrimage visited by thousands of tourists every year, maintains its holiness for the Moslems as well as for the Christian world. People believing in the godly qualities of the Virgin Mary come here and drink from the water believed to be sacred, they make wishes in the mystic and quite atmosphere of Mount Aladag.

- ▶ Detailed ultrasound
- ▶ Fetal echocardiography
- ▶ Sugar load test in pregnancy
- ▶ Chorionic villus sampling
- ▶ Amniozentese
- ▶ Cordocentesis
- ▶ Genetic screening tests in pregnancy

**PERINATOLOGY**  
HIGH-RISK PREGNANCY

# TRUST US WITH YOUR LIFE

To ensure that our premature babies grow up healthy, our team is on duty **24 hours a day, 7 days a week.**

- ▶ Supporting breathing
- ▶ Blood exchange
- ▶ Phototherapy (light therapy)
- ▶ Percutaneous catheter applications
- ▶ Applications of total parenteral nutrition
- ▶ Insertion of thorax drainage
- ▶ Invasive blood pressure monitoring
- ▶ EEG (electroencephalogram of the brain)
- ▶ ECHO (Heart - Ultrasound)
- ▶ USG (ultrasound)
- ▶ Examination of retinopathy

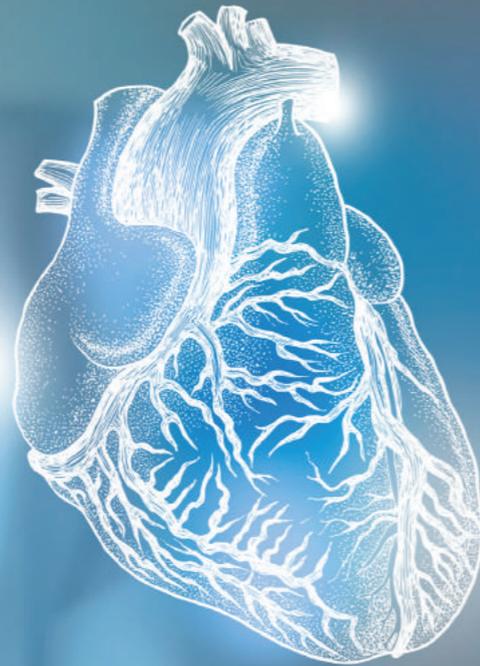

**PREMATURE  
BIRTH**

## ALTERNATIVE METHODS OF VARICOSE VEIN TREATMENT

- ▶ Intravenous radiofrequency therapy for large varicose veins, laser and foam sclerotherapy
- ▶ Removal of capillary varicose veins from the skin by laser method
- ▶ Non-surgical treatment of varicose veins
- ▶ Emergency response and resuscitation
- ▶ Diabetic foot
- ▶ Heart compression
- ▶ Myocardial infarction (heart attack)
- ▶ Palpitation
- ▶ Varicose vein ulcer
- ▶ Cardiac rheumatism
- ▶ Tachycardia
- ▶ Gangrene

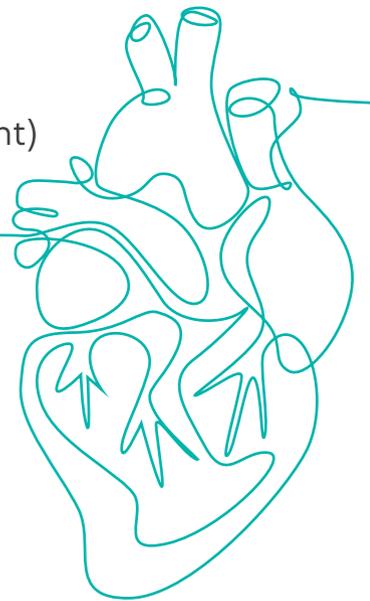

**CARDIOVASCULAR  
DISEASES**

## CARDIOVASCULAR & CARDIOTHORACIC SURGERY

- ▶ Pericardiectomy
- ▶ Patent foramen ovale transcatheter repair
- ▶ Mitral valve repair
- ▶ Percutaneous balloon pericardiotomy
- ▶ Aortic dissection repair
- ▶ Pneumothorax surgery
- ▶ Bronchiectasis surgery
- ▶ Sympathectomy surgery
- ▶ Lung cancer surgery
- ▶ Thymoma surgery (Myasthenia gravis treatment)

**CARDIOVASCULAR &  
CARDIOTHORACIC  
SURGERY**

## INNOVATIVE APPROACHES TO EAR-NOSE THROAT SURGERY AND TREATMENT PRACTICES

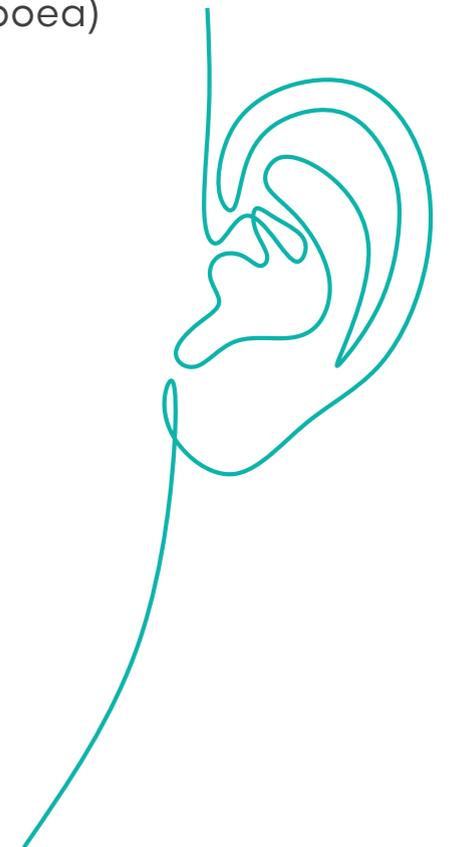

- ▶ Rhinoplasty (nose job)
- ▶ Nasal flesh and adenoids
- ▶ With the thermal welding method nasal meat and tonsil operations
- ▶ Reduction of nasal flesh with radiofrequency plasma method
- ▶ Vertigo (balance disorders)
- ▶ Diseases of the upper respiratory tract
- ▶ Allergic rhinitis
- ▶ Hearing impairments
- ▶ Aural surgery
- ▶ Snoring and apnea surgery
- ▶ Sinusitis surgery
- ▶ Myringoplasty (tympanoplasty)

**OTORHINOLARYNGOLOGY**  
CLINIC

## SUCCESSFUL RESULTS WITH EARLY DETECTION OF HEARING LOSS

- ▶ Pediatric Audiology
- ▶ Otoacoustic emission test (Teoae, Dpoea)
- ▶ Electronystagmography (ENG)
- ▶ Acoustic reflex tests
- ▶ Hearing and screening tests for newborns (scan "ABR")
- ▶ Speech audiometry
- ▶ Tympanometry
- ▶ Diagnosis and treatment of tinnitus
- ▶ Balance Tests (VHIT)

**AUDIOLOGY**

# NEUROLOGY

## PAY ATTENTION TO THE SIGNALS IN NEUROLOGICAL DISEASES!

- ▶ Alzheimer's and other dementias
- ▶ Parkinson's disease
- ▶ Migraines and other types of headaches
- ▶ Epilepsy (Seizure disorders)
- ▶ Dizziness (Vertigo) and imbalance
- ▶ Muscle diseases, myopathies
- ▶ Brain and vascular diseases
- ▶ EEG – EMG (Neurophysiology)
- ▶ Balance test
- ▶ Movement disorders
- ▶ Demyelinating diseases
- ▶ Peripheral nerve diseases

SO THAT YOU CAN MOVE FREELY  
AT ANY AGE

## **CAN** ORTHOPEDICS IS WITH YOU

- ▶ Operations walking disorders due to congenital hip dislocation
- ▶ Operations of the hip, knee, hand, and arm prosthesis
- ▶ Arthroscopic operations on the knee, shoulder, And ankle joints
- ▶ Operations of the anterior cruciate ligament
- ▶ Sports and trauma surgery
- ▶ Hand surgery
- ▶ Prp applications
- ▶ Microsurgery
- ▶ Deformity surgery
- ▶ Pediatric orthopedics
- ▶ Heel spur treatment
- ▶ Sciatica treatment
- ▶ Meniscus treatment

**ORTHOPAEDICS  
AND  
TRAUMATOLOGY**

## TREATMENT OF PROSTATE AND KIDNEY STONES WITH THE LATEST **"THUFLEP"** TECHNOLOGY IN THE UROLOGICAL CLINIC!

- ▶ Closed prostate surgery
- ▶ Laparoscopic (closed) kidney and bladder operations
- ▶ Kidney stone surgery with laser method
- ▶ Urological cancer surgery
- ▶ Diagnosis and treatment of erectile dysfunction – Penile prosthesis and shock wave therapy
- ▶ Urinary incontinence
- ▶ Circumcision – undescended testicles – hypospadias operations
- ▶ Cancer – surgery
- ▶ Disorders of the shape of the penis
- ▶ Diagnosis and treatment Of male infertility
- ▶ Varicocele repair microsurgery

**UROLOGICAL  
CLINIC**

## FAST, RELIABLE LABORATORY RESULTS

- ▶ Blood count
- ▶ Biochemical tests
- ▶ Hormone analysis
- ▶ Serological tests
- ▶ Microbiological tests
- ▶ Pathological examinations
- ▶ Infertility examinations
- ▶ Allergy tests
- ▶ Hematological examinations
- ▶ Genetic testing
- ▶ PCR
- ▶ Sputum - Culture
- ▶ Blood test
- ▶ Urine / fecal test
- ▶ Tissue examinations
- ▶ Cerebrospinal fluid
- ▶ Mucus examinations from the nose, throat, or genital area
- ▶ Examination of parasites
- ▶ Rotavirus - Antigen
- ▶ Hidden blood (occult blood) in the stool
- ▶ Discharge from the urethra
- ▶ Prostate fluid

**BIOCHEMISTRY AND  
MICROBIOLOGY  
LABORATORY**

**RADIOLOGY**

## IMAGE VIEWING CENTER

- ▶ 1.5 magnetic resonance imaging
- ▶ 16 section computed tomography
- ▶ Digital x-ray
- ▶ Ultrasonography and doppler
- ▶ Mammography
- ▶ Digital c-arm copy
- ▶ Pacs
- ▶ Panorama – X-ray image
